## The Microscope and the Light of the World

A man became fascinated with a very powerful microscope that he purchased online. One day he examined the petals of a flower, the next day an ant and the following day he decided to view the food he planned to eat for a meal. He was horrified when he discovered tiny, microscopic creatures crawling in his food! Since he loved this kind of food, he thought of what he could do. He decided he would destroy the powerful microscope so he wouldn't see the tiny creatures again. "How foolish!" But isn't that the same thing too many people do with God's Word? When the Bible exposes their sins or false beliefs, many people decide to get rid of the Bible which is God's guidance for their life.

Jesus explained this very concept in John 3:19-21, *“this is the judgment: the light has come into the world, and people loved the darkness rather than the light because their works were evil. 20 For everyone who does wicked things hates the light and does not come to the light, lest his works should be exposed. 21 But whoever does what is true comes to the light, so that it may be clearly seen that his works have been carried out in God.”*

Let's be an open book as we examine God's word and then evaluate our lives. When the light of God's Word shows us our faults, our false beliefs, our bad decisions or our wayward lifestyle; we should turn to God for forgiveness, redemption and change. As Peter said in Acts 3:19, *“Repent therefore, and turn back, that your sins may be blotted out.”*

If the Weber Road ministers, elders or church family can assist you in these matters, please don't hesitate to reach out for help.
